# FOOD BANK MINISTRY

During the month of June we are collecting canned tuna and canned chicken. Thank you to everyone who donated products in May and to those who faithfully contribute items each month.

\*\*\*\*\*

The Spring UTO Offering will be taken on Sunday, June 4, 2017. You are invited to 'count your blessings' in thanksgiving for large and small daily gifts from God that brighten your life and the lives of those around you. Envelopes will be provided in the bulletin that Sunday for your donations. Thank you!

Dear Members of North Parish,

Thank you so much for the chairlift. It has made a big difference in our lives! We appreciate it!

Thank you so much,  
Bernie & Diane Nace

Dear Members of North Parish,

We are in possession of a check in the amount of \$150.00 from North Parish Episcopal Churches of Ashland and St. Clair. This generous donation is greatly appreciated by us, the staff and Board of Trustees of the Ashland Public Library. We can always use help with monetary donations. We realize your parish can also use help, and this makes us all the more appreciative of this donation.

Thank you so much for thinking of our library. May God Bless you and the congregations of St. John's and Holy Apostles.

Sincerely,  
Ann Helwig, Manager  
Ashland Public Library

(This donation was donated by North Parish's Outreach budget)

## **NEWS FROM MARION C. PRICE TRUST FUND**

June is Alzheimer's & Brain awareness Month. Alzheimer's is a brain disease that causes a slow decline in memory, thinking and reasoning skills. There are 10 warning signs and symptoms. Individuals may experience one or more of these signs in different degrees.

- Memory loss that disrupts daily life, especially forgetting recently learned information, including forgetting important dates or events, asking the same information over and over; increasingly needing to rely on memory aides or family members for things they used to handle on their own. *Typical age-related change: Sometimes forgetting names or appointments, but remembering them later.*
- Challenges in planning, solving problems or working with numbers. *Typical age-related change: Making occasional errors when balancing checkbook.*
- Difficulty completing familiar tasks at home, at work or at leisure. Sometimes people may have trouble driving to a familiar location or remembering the rules to a favorite game. *Typical age-related change: Occasionally needing help to use the settings on a microwave or to record a television show.*
- Confusion with time or place, seasons and the passage of time. Sometimes they forget where they are or how they got there. *Typical age-related change: Getting confused about the day of the week but figuring it out later.*
- Trouble understanding visual images and spatial relationships. They may have difficulty reading, judging distance and determining color or contrast. *Typical age-related change: Vision changes related to cataracts.*
- New problems with words in speaking or writing. They may have trouble following or joining the conversation. They may also stop in the middle of a conversation and have no idea how they continue or they may repeat themselves. They may struggle with vocabulary, have trouble finding the right words or call things by the wrong names. *Typical age-related change: Sometimes having trouble finding the right word.*
- Misplacing things and losing the ability to retrace steps. Things may be put in unusual places and sometimes accusing others of stealing. *Typical age-related change: Misplacing things from time to time and retracing steps to find them.*
- Decreased or poor judgement. They may give large amounts of money away or pay less attention to grooming or keeping themselves clean. *Typical age-related change: Making a bad decision once in a while.*
- Withdrawal from work or social activities, hobbies, work projects or sports. *Typical age-related change: Sometimes feeling weary of work, family and social obligations.*
- Changes in mood and personality. They can become confused, suspicious, depressed, fearful or anxious. They may be easily upset at home, at work or in places where they are out of their comfort zone. *Typical age-related change: Developing very specific ways of doing things and becoming irritable when a routine is disrupted.*

If you notice any of these 10 warning signs in yourself or someone you know, don't ignore them. Schedule an appointment with your doctor. Professional evaluation may detect a treatable condition.
