

NORTH PARISH SEPTEMBER 2015 NEWSLETTER

**THRU THE HANDS OF GOD -
ONE HAND HELPING ANOTHER
(North Parish's Mission Statement)**

NEWS FROM MARION C. PRICE TRUST FUND

Change of date for September Senior Adventures- Please note the date change for our September adventure, it is now scheduled for Thursday, September 24, 2015 to Friedensburg Country Inn.

Scam Alert – With so many online stores available, it's sometimes very difficult to know the difference between a legitimate e-commerce site and a fake one set up to steal money or a person's identity. Operating out of China, scammers set up generic online stores that sell name brand items or mimic the websites of big name brand companies. On these sites, scammers sell fake or counterfeit products at significantly reduced prices designed to attract buyers looking for big deals on name brand merchandise.

The over-reaching goal of these scammers is to gain access to the credit card numbers of their victims and then use the numbers to fraudulently make purchases or make a buck with the information on the black market. In some cases, the criminals even go so far as to send fake or counterfeit products to victims. As the merchandise ships from international locations, victims often remain unaware of any wrong-doing against them until weeks have passed. Although many brand companies discover these sites and shut them down, it's usually too late.

Shingles Vaccine - Shingles is a painful skin rash that develops on one side of the face or body. Shingles vaccine reduces the risk of developing shingles and the long-term pain that can follow. Your risk of shingles and long-term pain from the disease increases as you age. It is recommended for people age 60 years and older. Even if you have had shingles, you can still receive the shingles vaccine to help prevent future occurrences of the disease. There is no specific time that you must wait after having shingles before receiving the vaccine. Protection from the shingles vaccine lasts about 5 years.

Shingles is caused by the same virus that causes chickenpox. After the person recovers from the chickenpox, the virus stays in the body in a dormant (inactive) state. The virus can reactivate years later, causing shingles.

Shingles usually starts as a painful rash on one side of the face or body. The rash forms blisters that typically scab over in 7-10 days and clears up within 2-4 weeks. Before the rash develops, there is often pain, itching or tingling in the area where the rash will develop. This may happen anywhere from 1-5 days before the rash appears. You may also experience fever, headache, chills and an upset stomach. If your healthcare provider thinks you are a candidate for the shingles vaccine they will help you determine if your insurance will cover the cost and locations offering the vaccine.

Mom's Meals independent at home program provides fresh-made, nutritious and great tasting home delivered meals. Cost is approx. \$6.49 per meal. Fully-prepared, nutritionally balanced meals provide up to 700 calories with protein, vegetables, grains and snacks are delivered in fresh-lock packages and climate controlled containers that stay ready to eat in the refrigerator for 14 days.
